

Be part of the change

GRIP, delivered in collaboration with leading growth fund Nordic Alpha Partners, equips you to make fast, informed decisions in the demanding environment of deep tech scaling. You leave with a stronger understanding of the forces shaping deep tech growth and re-industrialisation, along with practical tools to lead scaling efforts, support accelerated expansion, and contribute to long-term value creation in a more resilient and sustainable future.

GRIP is designed for...

- Investors (Angel, Venture Capital, Corporate VC, Private Equity, Institutional)
- CXOs of technology-driven scaleups
- Policymakers (national & EU level)
- Innovation intermediary leaders (incubators, science parks, cluster organisations)

A three-day executive programme

DAY 1, Oct 28th

Meta-Perspective

Explore the core drivers and barriers of deep tech scaling, from re-industrialisation dynamics to the transition from proven technology to commercial deployment, and get introduced to the Changing the Math toolkit through cases.

Evening: Team Dinner & Networking

DAY 2, Oct 29th

Scaling & De-Risking Toolkit

Examine the macro-financial context of deep tech markets and work hands-on with the hypergrowth toolkit to understand how transformative technology companies can create and capture growth.

Evening: Informal networking & Drinks

DAY 3, Oct 30th

Navigating Hypergrowth

Focus on the organizational side of scaling, from governance and leadership to practical case sharing, concluding with feedback, graduation, and networking.

Case Sharing & Feedback

Graduation & Networking Reception

⊕ DTU TECHNOLOGY DEEP DIVE, Oct 27th (Complimentary 1 Day event)

Join us for a full-day Energy Tech Deep Dive at DTU Skylab, exploring energy systems, energy conversion, fusion energy, lab facilities, and the challenges of scaling energy tech ventures. The day combines expert talks, a DTU Fusion Lab visit, startup insights, a scaling workshop, roundtable discussion, and networking drinks.

If this date does not work for you, you are very welcome to join one of our future Deep Dive Days.

GRIP Cohort 4 at a Glance

The Programme brings together DTU's leading research and innovation ecosystem with Nordic Alpha Partners' proven experience in scaling green tech. The programme combines live cases with a practical toolkit for navigating hypergrowth and driving sustainable industrial transformation

- **Location:** Greater Copenhagen
- **Dates:** Oct 28-30, 2026
- **Format:** 3 full days (plus optional Deep Dive Day)
- **Price:** DKK 29,950 (covers tuition, materials, and catering)
