Digital Innovation

Strategic digital board leadership

Understand how digital technologies, AI, robotics, and data reshape business models, competitiveness, and long-term value creation.

AI-savvy boards

Gain practical and strategic insight into generative AI, agentic AI, machine learning, and emerging technologies — with a clear focus on board relevance, opportunities, and risks.

Cybersecurity & business continuity oversight

Strengthen board capabilities in cyber risk, regulatory responsibilities, crisis management, and business continuity through real cases and boardroom perspectives.

From innovation to governance

Learn how boards can balance innovation, speed, ethics, and risk - and ask the right strategic questions of management.

Hands-on learning with immediate relevance

Participate in workshops and applied exercises that translate complex technology into actionable board decisions.

Assessment and certification of board readiness

Conclude the programme with a board-level assessment and presentation, ensuring tangible learning outcomes.

Exclusive board-level network

Become part of the DTU Board Club, offering ongoing access to professional development, peer exchange, and a trusted executive network.

Fintech Scaleup

This three-day programme equips board members and executives in fintech scaleups with the knowledge, tools, and networks needed to navigate the journey from local success to international scale. The programme blends governance best practices, strategic growth frameworks, and leadership development with hands-on workshops and case-based discussions.

Participants will engage with leading academics, experienced board chairs, legal experts, conflict mediators, and fintech practitioners. Together, they will explore the dilemmas and opportunities that arise when scaling internationally—balancing innovation with regulation, agility with structure, and growth with governance. The programme also provides unique opportunities to learn from Nordic scaleups
