Digital Innovation

This four-day DTU Board Certificate equips board members, CXOs, top executives and investors to understand, challenge and guide decisions on AI and digital innovation.

Participants move from technology insight to business impact, implementation, risk and personal board leadership – translating AI, cybersecurity, data, ethics and governance into concrete board action.

4 days

- 1: The AI Frontier, Deep Insight in the Boardroom
- 2: AI for Business, The Board's Strategic Business Governance
- 3: Responsible AI, Implementation, Risk and Board Strategy
- 4: From Insight to Action, Personal & Board Leadership

Includes DTU Board Club membership for the rest of the year.

Language: English

Price: 35,999 incl. VAT

Place: Copenhagen

DTU

Digital Innovation

Strategic digital board leadership

Understand how AI, robotics and data reshape business models, competitiveness and long-term value creation.

AI-savvy boards

Gain practical insight into generative AI, agentic AI, machine learning and human-AI interaction.

Responsible AI, cybersecurity & continuity

Strengthen board oversight of cyber risk, regulation, compliance, data, ethics and technological dependency.

From innovation to governance

Turn technology insight into priorities, governance principles, control questions and board decisions.

Hands-on boardroom learning

Work with company cases, scenarios, demonstrations, AI exercises and the Board AI Strategy Map.

Assessment and personal board value

Conclude with assessment, graduation and a concrete personal board action plan or value proposition.

DTU Board Club network

Become part of the DTU Board Club, offering ongoing access to professional development, peer exchange, and a trusted executive network.

Global Re-Industrialisation

GRIP equips you to make fast and informed decisions in the hectic deep tech scaling environments. You will leave with a stronger understanding of the forces shaping deep tech growth and re-industrialisation, and with practical tools to lead scaling efforts, support accelerated expansion strategies, and manage transformation.

The programme is designed to help you make faster and better decisions, contribute to long-term value creation, and take an active role in shaping a more resilient and sustainable future. This programme is designed for Investors, CXOs, Policymakers, Innovation intermediary leaders.

3 days

- 1: Industrial Complexity & Introduction to tools & frameworks
- 2: Geoeconomics & De-Risking Hypergrowth
- 3: Hypergrowth Management & Governance

Language: English

Price: DKK 29,950 incl. VAT

Place: Copenhagen

Global Re-Industrialisation

Understanding Sustainability

Identifying challenges and opportunities for action in the Deep Tech scaling.

Governance Principles

Embedding sustainable governance in organizations to support the Deep Tech scaling.

Deep Tech Success

The role of sustainability in scaling Deep Tech ventures.

Market Opportunities

Leading value chain transformations for sustainability in Deep Tech.

Governance Frameworks

Supporting equitable growth through effective governance in Deep Tech companies.

Innovative Culture

Fostering an environment that supports sustainability and innovation in Deep Tech.

Partnerships

Forming collaborations that drive innovation and impact in the Deep Tech scaling.

Funding Strategies

Securing support for sustainable growth initiatives in Deep Tech ventures.
